ADOPTED BUSINESS AND TECHNICAL SOLUTIONS

Ekstraklasa, in order to enhance its business processes of invoice flow, has used Suncode's solution recommended by the biggest audit company in Pomeranian voivodeship. The tool for the process enhancement is Plus Workflow in which the process of registry, description and acceptance of an invoice has been reflected. The most important goal which has been reached with Plus Workflow is control taken over a vast amount of incoming invoices and documents connected with it as well as coordination of a document flow between employees and accountant company. Ekstraklasa uses Plus Workflow which is enabled in SaaS model. Due to that, the company can quickly and with minimal monthly costs begin the process of multi-level document acceptance. The process is transferred to the subsequent acceptance levels basing on defined conditions. Then, accepted documents are transferred to the external financial system which results in automatic running of accounting transaction.

"We are glad that our implemented solutions serve optimization of Accountant Groups and their clients. It is connected with mutual fulfilment of business benefits in terms of invoice flow in short time periods. Our services delivered to Ekstraklasa has facilitated the goal of managing accounting office's and Ekstraklasa's clients' documents" – Marek Adamczyk, Suncode's Executive Director.

Using Plus Workflow system for electronic invoice management is a big step to

strengthen the competitiveness of the audit companies offer. Using such a tool with a cooperation with a client and providing services in an electronic form builds Ekstraklasa's comfort and satisfaction of offered accounting and financial services.

"Everyday usage of the Plus Workflow system enhances the work with our clients considerably. All of the incoming documents are stored in one place and are automatically transferred to the accountancy. Shared by the accountant company electronic services and Suncode's solution enable easy and intuitive document flow between our contractors, Ekstraklasa and accountant company. – explains Dariusz Marzec, Ekstraklasa's President.
