IMPLEMENTED BUSINESS AND TECHNICAL SOLUTIONS

Piotr i Paweł group strengthens its position on the market by implementing technical solutions which enhance an informative system and business processes. The next step to enhance the company's activity is the implementation in the headquarters of the company business process management system Plus Workflow in order to optimize costs and increase the efficiency of processes.

The aim of the implementation was organization support and increasing work efficiency. The tool for that is Plus Workflow, which has been chosen by the group. The system enables electronic data transfer. The scope of work included cost document flow process and the implementation of the Plus eInvoice module. The module is used for the management of electronic invoices in PDF file received by email. An integration with ERP CDN XL has facilitated accountant work. Moreover, during the project, several scanning stations has been crated. The stations are equipped with Plus Barcode Reader and Plus Directory Monitor modules.

In Piotr i Paweł group we constantly implement new solutions and innovative projects which support our activity. We have decided on Plus Workflow implementation in view of rich experience and knowledge. Suncode company demonstrated thoroughness and extensive references. – Tomasz Jankowski, Shared Service Center director
